Abstract

Spendwise is a smart expense management system designed to help individuals track, analyze, and optimize their spending habits. The application provides a simple platform for recording daily expenses, categorizing transactions, and visualizing financial patterns. With intelligent insights and budgeting tools, users can make better financial decisions and maintain control over their personal finances.

Introduction

Managing personal finances has become increasingly important in modern society. Many individuals struggle to keep track of their daily expenses and financial commitments. Spendwise aims to simplify financial tracking by providing a digital solution that records and organizes spending information in an intuitive interface.

Problem Statement

Many peoplelack an efficient way to monitor their spending. and often inaccurate. Existing financial applications may be complex or overloaded with features. There is a need for a simple, intelligent system that helps users manage expenses and understand spending behavior.

Objectives

Provide an easy-to-use interface for recording daily expenses. Categorize spending such as food, transport, bills, and entertainment. Visualize financial data through charts and summaries. Offer budgeting tools to control monthly spending. Generate insights to help users improve financial habits.

System Overview

The system processes this data to generate reports and insights. The application can run as a web or mobile platform with cloud storage for secure access.

Key Features

Expense Tracking – Record daily transactions.
Budget Planning – Set monthly or category budgets.
Expense Categories – Organize spending into groups.
Reports and Analytics – View summaries and trends.
Notifications – Reminders for bills or budget limits.

Technology Stack

Frontend: React / Flutter Backend: Python (Flask or FastAPI) Database: Firebase / PostgreSQL Data Visualization: Chart.js or similar libraries Cloud Hosting: AWS / Firebase Hosting

System Modules

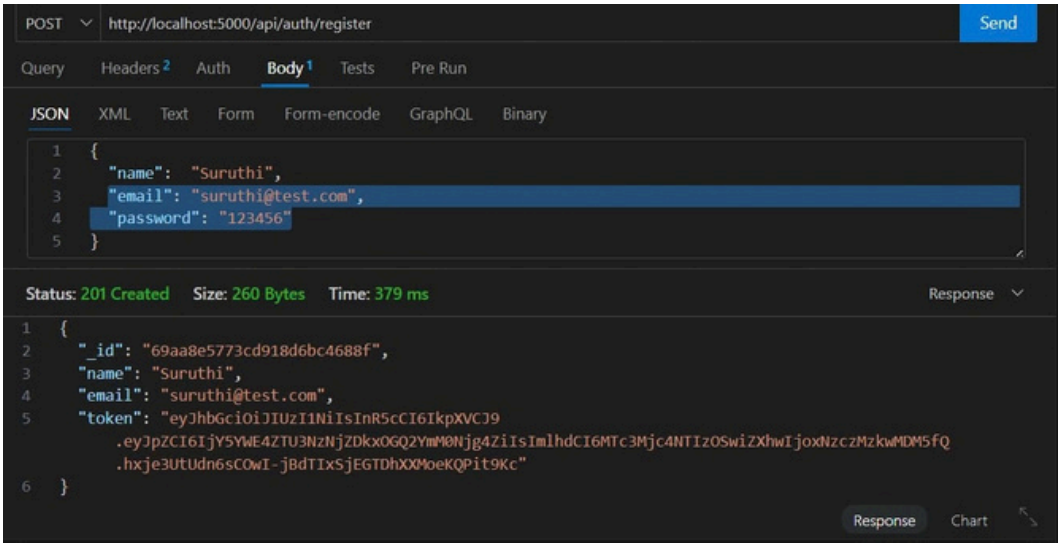
1. User Authentication Module 2. Expense Entry Module 3. Budget Management Module 4. Analytics and Reporting Module 5. Notification and Reminder Module

Future Scope

• AI-based spending predictions • Automatic expense detection from receipts • Integration with bank APIs • Personalized financial recommendations • Multi-user family budgeting features

Output

1.Register API



2.Login API

POST http://localhost:5000/api/auth/login Send

Query Headers 2 Auth Body 1 Tests Pre Run

JSON XML Text Form Form-encode GraphQL Binary

```
{
  "email": "suruthi@test.com",
  "password": "123456"
}
```

Status: 200 OK Size: 260 Bytes Time: 149 ms Response

```
{
  "_id": "69aa8e5773cd918d6bc4688f",
  "name": "Suruthi",
  "email": "suruthi@test.com",
  "token": "eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9
      .eyJpZCI6IjY5YWE4ZTU3NzNjZDkxOGQ2YmM0Njg4ZiIsImlhdCI6MTc3Mjc4NTgyMSwiZXhwIjoxNzczMzkwNjIxfQ
      .0U4G3qAPo6OZBXuvzhHq_OPqG-qO-mxz5UcQFyYYHUw"
}
```

Response Chart

3.Create Transaction

POST http://localhost:5000/api/transactions Send

Query Headers 3 Auth Body 1 Tests Pre Run

JSON XML Text Form Form-encode GraphQL Binary

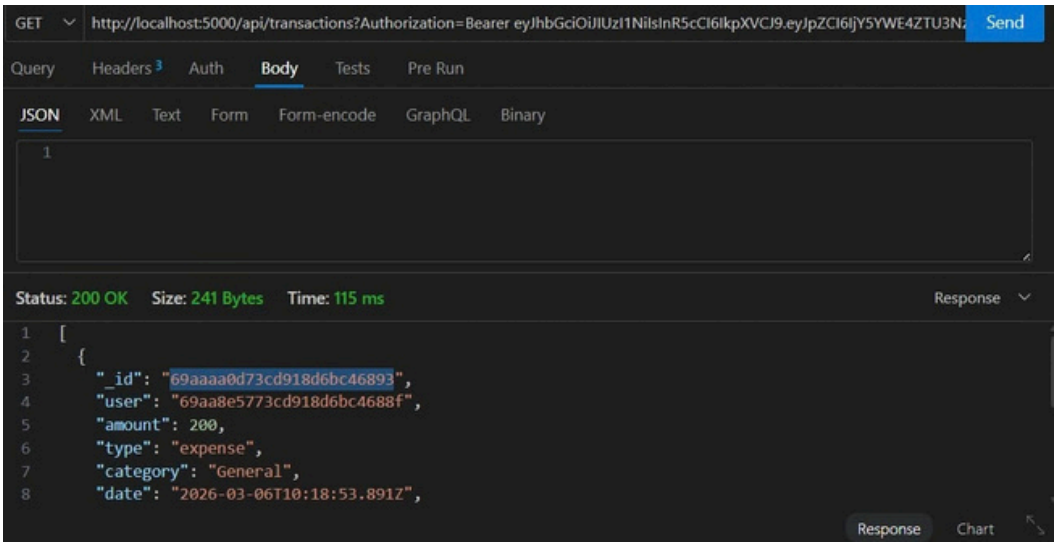
```
{
  "title": "Food",
  "amount": 200,
  "type": "expense"
}
```

Status: 201 Created Size: 239 Bytes Time: 107 ms Response

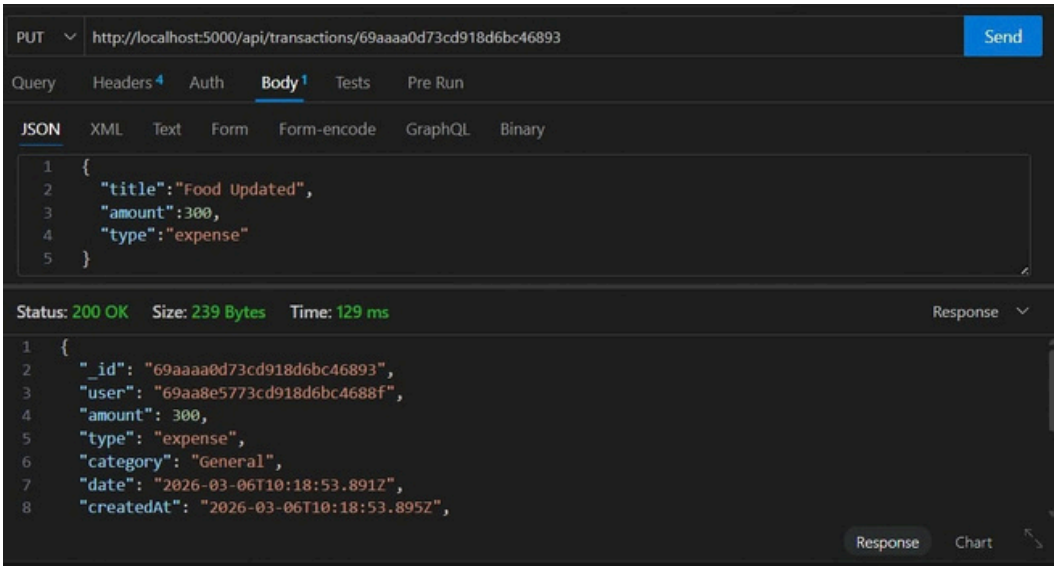
```
{
  "user": "69aa8e5773cd918d6bc4688f",
  "amount": 200,
  "type": "expense",
  "category": "General",
  "date": "2026-03-06T10:18:53.891Z",
  "_id": "69aaaa0d73cd918d6bc46893",
  "createdAt": "2026-03-06T10:18:53.895Z",
```

Response Chart

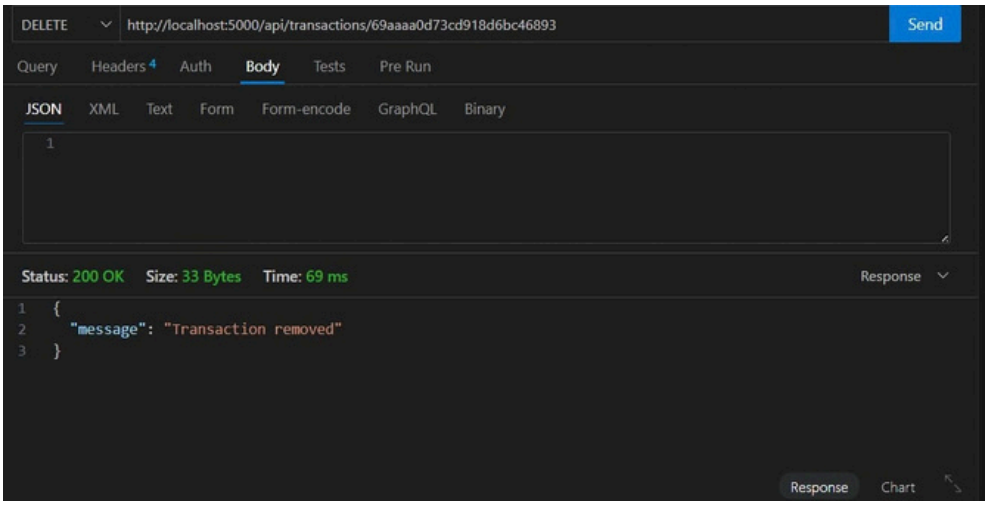
4.Get Information



5.Update API



6.Delete API



Conclusion

Spendwise provides a practical and efficient solution for managing personal finances. By combining simple expense tracking with intelligent insights, the system helps users develop better financial awareness and long-term money management habits.
